Voices from field

Foreword

I am honoured in presenting Diya Foundation's Annual Activity Progress Report for the year 2021-2022. This annual activity report detail out the organisation's interventions, successes and challenges and a range of activities carried out in Ri-Bhoi Districts of Meghalaya and Kamrup, Goalpara and Darrang District of Assam. Diya gathers information from the community, partners, well-wishers and with stakeholders throughout this one year of period to successfully bring few improvements into the lives of small and marginal families, persons with Mental Illness and Children's who lack proper schooling, learning abilities, learning hesitancy etc. etc.

My appreciation and thanks to our General Body and the Governing Board for actively directing and over sighting the functions and movements of the organisation towards accomplishing the mission, vision and objective of Diya Foundation.

I sincerely acknowledge and thank our hardworking each and every team members of the organization who tirelessly put their effort to carry out all responsibilities in the community. I also thank our Community Volunteers and Community Resource Persons for their dedication to completing every assignment and connecting everyone who needs our intervention in their respective geographies.

I acknowledge and thank our program stakeholders in all the villages who closely associated with us in this journey and believed in us and travelled as coo-traveller into the journey. They have shown immense progress despite of various hurdles and disappointments. It is because of their continuous effort, pain taking and eagerness which motivates and urge us to being with them continuously.

Our sincere acknowledgement and thanks to all our donors, supporters, benefactors, well-wishers, govt. departments and non govt. department and institutions for their continuous support in kind as well as through grants and schemes. Without such support Diya would have not been able to reach to the extend where it suppose to be today. Diya Foundation will always remain grateful to each and every donors, supporters, benefactors, well-wishers, govt. departments and non govt. department and institutions equally even if supported fully or partly in achieving the Organization's mission and vision.

Once again we heartily thank everyone and will always remain grateful. Thanking you and best wishes.

Sincerely,

A handwritten signature in black ink, appearing to read 'Martin Rabha', written over a horizontal line.

Martin Rabha

Diya Foundation

Fundamentals

Vision

A society of self-reliant, sustainability and dignity

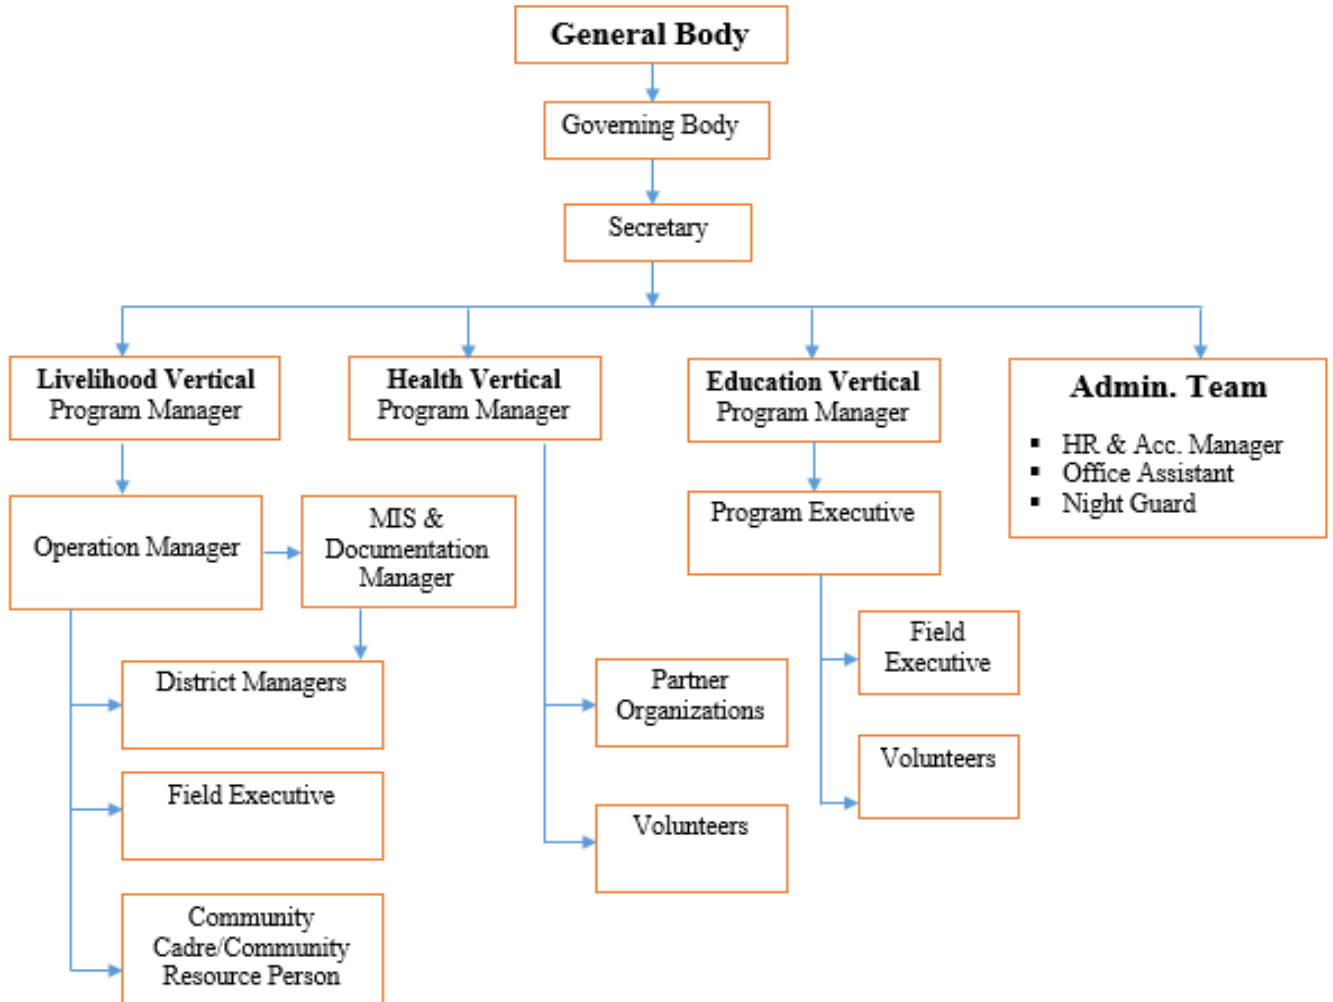

Mission

Serving the community to enhance their capacities, participation, institution-building and sustainable use of resources.

Goal:

- To impact the lives of 60,000 by 2023 through livelihood, health and education programs.
- To build institutions and local governance for better participatory decision-making
- To bridge the gap for resource mobilization, linkages and entitlement.

Governance

Board Members

Shri. Banteilut L. Nongbri is a development professional having 25 years of working experience. He holds a bachelor degree as well as Diploma in wood engineering. He is the Founding Chairman of Rilum Foundation based at Smit, East Khasi Hills District. His vast experience Diya to shape the organization. Shri Banteilut was the Board Member at CML, an initiative of Tata Trust based at Guwahati and several NGO's in Meghalaya. At present he is the promoter of Famous 5 Ventures, a wood based Construction Company based in Smit, Meghalaya. Currently he holds the post of Chairman at Diya Foundation.

Diya's Outreach

Interventions

1. Livelihood Intervention:

A. Animal Husbandry

Animal husbandry plays a vital role into the lives of small and marginal families, livestock are like an ATM for these households as for any emergency or need for immediate cash they have their livestock assured to fulfill the need for cash. Livestock rearing is like recurring deposit among the marginal household in rural part especially among the tribal communities.

Diya Foundation initiated promotion of Piggery, Poultry, Goattery and Duckery introducing hygiene way of rearing with low cost shed. Today total 1500 families are directly involved in animal husbandry program. Diya Foundation successfully developed models on low cost and improved shed thus improving health and hygiene of livestock's as well as the households. As per the data gathered 550 households are additionally earning 25,000/- to 30,000/- through sale of livestock's every year.

In animal husbandry program the other important aspects are promoting entrepreneurs and linking them with resource institutions to avail better skills and finance. In this journey Regional Institute of Livestock Entrepreneurship & Management (RILEM), of Govt. of Assam, State Veterinary Dept. are playing vital role in promoting livestock entrepreneurs in collaboration with Diya Foundation.

B. Agriculture

Diya foundation supports intensive agricultural practice on horticulture i.e. Arecanut, Banana. The horticulture plantation is primarily done in the homestead land and intercropped with spices and sericulture. At present 2000 households embraced this practice and a total of 800 farmers transformed into commercial plantations crops like bananas, Arecanut and Lemons. Additionally out of 2000 households 1200 households interpolated spices like ginger, turmeric and black paper in Arecanut. Through this practice farmers earn Rs. 28,000/- to 45,000 additional bringing significant improve into their living conditions, invest in their children's education, and build or renovating their homes.

Diya foundation has promoted spices among the communities impacted by poached elephants and other wildlife. Diya promotes spices such as Black Pepper, Ginger and Turmeric combined within the homestead agricultural area. Spice cultivation has been one of the household's primary sources of revenue. Total 3500 household adopted spices cultivation in the District. The sale price of the black paper is 300 to 450 Rupees per kg, and Turmeric at Rs. 12/- -15/- per kg (raw). Diya foundation imparted several capacity building programs i.e. value addition, planting and harvesting method, disease and pest control, market information etc. Through the sale of Black Pepper farmers are additionally earning raging from 35,000/- - 70,000/- per season every year.

C. Sericulture Value Chain

The Rabha tribal people in the Rani, Chayani, and Chhaygaon Dev. Block of Kamrup Rural District practice Sericulture rearing as one of its tertiary income generating activity. Diya Foundation has been sensitizing the community and making its best effort to adopt Sericulture rearing as primary income earning activity in a household. Sericulture can play a vital role into the lives of small and marginal families in terms of making financially strong. Under Sericulture Eri is most prominent and widely practiced but Muga is taking the peak now. In Sericulture Diya distribute and strengthen the beneficiaries to produce quality DFL's, repellents, spinning machine and designed low cost rearing and preservative structures for the community in order to do rearing smoothly thereby producing quality cocoons and preserve properly. Total 1500 households are into sericulture intervention and promoted by Diya Foundation. Through this intervention a household is generating additional income of Rs. 3500/- - 4000/- per month.

E. Decentralized Renewal Energy.

Because of the poor communication and a un-reached geography, Electric service has become a major challenge. In the remotest area people's livelihood is affected due to absence of energy availability and disruption. Diya promoted "DRE solution for livelihood intervention" aiming at creating energy need solutions among the small entrepreneurs and poor and marginal farmers where there is huge energy gap as well poor electric connectivity and erratic power supply. It also aims at creating job opportunities among the rural youths through sustainable energy base livelihood solution to strengthen employment and rural economic. Till the period Diya have promoted more than 350 solutions which include Rice Hollers, Egg Incubators, Spinning Machines, LSK's, Tailoring Units, Saloons, Eateries, Spice Grinders, Bio Gas, Irrigation Pump sets etc. in Kamrup, Goalpara and Darrang Districts of Assam. In Meghalaya this program could reach out entrepreneurs of Ri-Bhoi District especially in the border areas of Assam – Meghalaya especially on Swing Machines and Eri Spining Machines. This intervention also could break the barriers and conceptual clarity among the community that "*Solar could solve energy problems and*

2. Health & Hygiene Intervention

A. Maternal Health-

Maternal Health is an important aspect for the development of any state in terms of increasing equity & reducing poverty. The survival and well-being of mothers is not only important in their own right but are also central to solving large broader, economic, social and developmental challenges. Even though Assam stand highest in Maternal death in the country it has made remarkable progress in reducing maternal deaths over the last few years. And the Govt. is putting its best effort to eradicate cause of maternal death through all means.

Diya Foundation upholds this intervention to prevent and reduce maternal death in its working geographies as Diya's working approaches is women farmer centric. Steps taken by Diya Foundation are creating awareness among women and girls, strengthening VHSND's. The other important aspects of working on Maternal Health is collecting evidences of disrespect from various places, collating the responses and presenting in various forums in order to promote Respectful Maternity Care. Diya does involve in several research, documentation and campaigns such as What Women Campaign, Youth Bol Campaign, What Midwifery Want Campaign etc. to bring into the table their voices

3. Promoting Education

The education program of Diya Foundation is initiated among the schedule tribe and marginal communities belonging to Rabha, Bodo, Garo, Tea Tribe and General Assamese general who predominantly reside in the forest village, border of Assam-Meghalaya and Tea Garden in the Kamrup District of Assam. The education scenario of the area is very low with high absenteeism and dropouts in the primary level. Diya could reach to 24 nos. primary schools spread across 18 villages in 2 Development Blocks under Kamrup District of Assam. It is directly working with 1500 numbers of children of whom. Diya provides two program for children they are-

- Developing learning abilities, communication & collaboration skills, creativity and critical thinking, curiosity, analytical thinking and confidence building.
- Engaging with stakeholders for promoting better education and education reformation.

4. Institution building

Institution building is one of the key principal of Diya's community development approach. So far Diya have successfully developed and capacitated 2 (two) Farmer Producer Companies, 180 nos. Women Self Help Groups, 85 Farmers Interest Groups.

The Diya Foundation focuses on empowering communities for their sustainable development. When intervening in the development process, the Diya Foundation prioritizes and works to empower women.

The institutions were also successfully linked with various govt. and non govt. institutions for leveraging inputs and services. The Farmer Producer Companies could successfully leverage schemes for setting up Common Service Centre under the SFURTI Scheme which is under MSME Dept. Govt. of India and APART, ARIAS Society, Govt. of Assam.

The FIG's are successfully linked with bank and it is in the verge of becoming a strong local institution in the village. The Self Help Groups are members of VO's and Clusters and under the direct program and supervision of ASRLM.

5. Covid 19 response

The most serious threat to human health and security worldwide is the spread of Covid 19. During this period community particularly small and marginal farmers, small and medium entrepreneurs, women vendors, daily wage labors, the sick and child bearing mothers situated in the remote village had a tough time for survival and plunging them back into misery and poverty.

Diya Foundation could assist the rural community by providing rations, food, nutritional supplements to low-income families, daily laborer's, homeless people living on the streets, pregnant and lactating mothers, person with disability, daily laborers, homeless and any families who where in need of us.

During lockdown Diya effectively got out to its mental patients who were on stress and anxiety, common mental disorders (CMD), severe mental disorders (SMD), epilepsy, Schizophrenia, Post-traumatic stress disorder etc., and timely and efficiently deliver medicines at their door step. This effort has provided coverage to nearly 80 patients comprises from in Assam and Meghalaya State.
