About MOSONiE SEF

MOSONiE SEF is a Non-Profit Organization led by a group of young and passionate women committed to work for the marginalized and underserved community in Northeast India. The name MOSONiE is derived from a Mao tribal word from the state of Manipur meaning “commonwealth” which means “Less of me, more of us”.

MOSONiE SEF is based at Pillangkata Village, Ri-Bhoi, Meghalaya. MOSONiE SEF represents “a small drop in the world’s need for shared responsible human initiative, contributing to a friendly environment to Create, Recreate and Rejuvenate the Resources around us”. The organization was officially incorporated on 8th September 2016, under Section 8 of the Companies Act, 2013. Established for the purpose of Peoples Corporate/Shared development and commonwealth, MOSONiE functions without regard to race, gender, nationality and political or religious affiliation. MOSONiE believes in the potential of each individual to reflect the image of God, dignity that is inherent in every person, the importance of the quality of human life and reviving the best in the natural world for the beneficial coexistence of all creatures.

VISSION & MISSION

Vission

MOSONiE SEF envisions creating a SMART North East India” By SMART MOSONiE-SEF means, SMART we mean “Sustainably Managed livelihoods for the most marginalized, underserved and unreached sections of the community who can add to the economic and wellbeing of rural areas in Northeast India.

Mission

To create, recreate and rejuvenate the resources and bring about socio Economic transformation in North East India for the most marginalized and underserved communities.

Values

Hardworking,Honesty and Hospitality.

District - 1

Block- 4

Building sustainable energy eco system through clean energy solutions:

- 170 livelihood solutions and 30 Home lighting systems were installed across 4 blocks in Ri-Bhoi District, Meghalaya. The solutions include Solar powered eri-spinning machine, Photocopy (LSK), Petty shops (lighting for cloth for shop, grocery shop and rice hotel) lighting for farm (poultry lighting), dryer and egg incubator.

- Identified and conducted awareness on clean energy in 10 new villages the awareness was carried out through community meetings as well as door to door awareness in 4 blocks (Jirang, Umling, Bhoirymbong and Umsning Block of Ri-bhoi Dist, Meghalaya).

Soh Marit (Black pepper for sustainable livelihood):

- Conducted baseline surveys in newly identified villages (Behenanodi, Chibra and Umtrynga) Umling Block, Ri-Bhoi Dist, Meghalaya.
- Provided input supply black pepper and banana saplings to 29 project participants.
- Conducted Exposure visit and capacity building training for the farmers.

Health Care and Hygiene:

- Conducted Operation and Maintenance in 49 Health center in Ri-Bhoi District Meghalaya.
- Conducted 30 Menstrual Hygiene awareness and distributed reusable sanitary pads to 2000 women and adolescents in Ri-Bhoi District Meghalaya.

Enhancing income in 10 tribal villages, 1100 households

- Identified 10 villages and promoted Animal Husbandry by distributing piglets.
- Capacity building training on Sericulture and Animal husbandry.

AN OVERVIEW OF OUR PROJECT /PROGRAM ACTIVITIES

Building sustainable Energy Eco System through Clean Energy Solutions:

Objectives-

- To understand and improve the energy access, efficiency and processes in providing a quality standard to the people residing in rural and tribal areas through sustainable energy access to uplift their education, livelihood and environment.
- Increased adoption of Solar Solution and efficient technology in various livelihood activities in Ri-Bhoi, Meghalaya leading to efficiency, increased income and reduction in drudgery associated with traditional livelihood activities.

Implementation-

- Inaugurated three eri-spinning centers and the MOSONiE Resource Center in August and September 2023 across Jirang, Umling, and Bhoirymbong in Ri-Bhoi District, Meghalaya, benefiting 118 individuals in eri silk processing and egg incubation.
- Conducted two capacity-building training sessions on solar-powered eri silk spinning for 60 women, enhancing their skills in operating machinery. The training, in collaboration with the Central Silk Board and Sericulture Department, took place over two days in Jirang, Umling, and Umsning, Ri-Bhoi District.

Implementation (Continued):

- Organized 2 exposure visits for 65 end-users to Eri Weave Kdonghulu village and Kineho Eri Enterprise Centre for cross-learning.
- Conducted a financial literacy camp in Warmawsaw village, Jirang Block, with 40 participants to educate on financial management, in collaboration with Meghalaya Rural Bank and MSRLS.
- On February 14 and 23, 2024, a training program on solar-powered egg incubators was held at MOSONiE Resource Centre, attended by 37 participants, focusing on operation, benefits, and renewable energy in poultry farming.

Soh Marit (Black pepper for sustainable Livelihood):

Under the Project Soh Marit (Black pepper for sustainable livelihoods), supported by Roots to Branches Foundation, MOSONiE-SEF aimed to improve the lives of marginalized families through sustainable livelihood. The project focuses on reviving home gardens by planting areca nut with black pepper and banana. This will help households earn regular income both in the short term and in the future.

Implementation-

- Enlisted 21 new project participants in 3 new villages and conducted baseline survey in Umling Block, Ri-Bhoi Dist, Meghalaya.
- 1300 black pepper and 430 banana saplings were distributed to 29 farmers.

Exposure visit to District Horticulture farm:

One day exposure visit was organized for the farmers at District Horticulture Farm Byrnihat. The exposure visit was organized on 28th April 2023. The main objective of the exposure was to give practical exposure to farmers and the farmers learnt from different successful implementation models being implemented particularly on black pepper cultivation in this region. Farmers from two villages (Nongspung-A and Timbokgre) along with MSW interns from Assam Don Bosco University (ADBU) Sonapur were participated during the exposure visit. Farmers were taken to different units where they got to witness first hand knowledge on Propagating of black pepper. Farmers were happy and encourage by seeing the different unit. A total of 17 participants took part in the exposure visit.

Consultation meeting and Household level holistic planning with farmers:

On 20th March 2024, MOSONiE-Socio-Economic Foundation organized a consultation meeting and household level holistic planning with the farmers at Timbokgre Village. The meeting started with an introductory welcome by Lian from MOSONiE-SEF followed by a felicitation of the Resource person of the day. Romen Rabha from Diya Foundation was the resource person during the meeting.

The consultation meeting was mainly focus on economic, social, well being and happiness which involve a comprehensive planning that encompasses various aspects of life. He emphasized on the importance of striving for a better lifestyle through hard work. He illustrated with an example from an income perspective showing how increased the numbers of working individuals could lead to extra income for instance attending social functions or markets incurred an annual expenditure suggesting the need to double income for a healthier lifestyle. Additionally he also highlighted alternative source of income such as harvesting areca nut which could yield significant returns. He further elaborated on entrepreneurial opportunities in poultry farming including meat processing, making pickles from poultry products etc. The session focus on the practical activity where the participants were given a task on Household level holistic planning exercise using the format of Family Income and Expenditure flow chart.

The depth of understanding and experience shared by the resource person has brought broadened perspective and stimulated a meaning discussion within the group which contributes significant to the success of the meeting. Overall 19 farmers were participated during the meeting.

Enhancing Income in 10 tribal villages :

Under this program MOSONiE-SEF with the support of Azim Premji Foundation carried out various activities in the project targeted area in Umling Block, Ri-Bhoi District, Meghalaya on thematic areas of sustainable livelihood promotion and improving women menstrual hygiene. Major Activities carried out in the financial year.

Implementation:

Capacity Building Training on Promotion of Livestock Rearing, Focused on Piggery The training is conducted in collaboration with the Office of the Assistant Director, Vocational Training Centre, Kyrdekulai, Animal Husbandry & Veterinary Department, Government of Meghalaya at Umtyrnga Village, Umling Block, Ri-Bhoi District, Meghalaya. The main objective of the training is to impart knowledge on pig rearing activities for enhancing household income of women belonging to low-income households and members of SHGs from 10 villages which are under the project.

A total of 140 project participants received training. Out of 140 participants, 103 adopted the activities by availing loans from their respective VOs, where MOSONiE have provided a Revolving fund of Rs. 4500 each for each member who has undergone training. This training initiative of MOSONiE SEF is to help women from low-income backgrounds and SHGs members in generating income through pig rearing.

Training on Sericulture and processing:

A series of training on sericulture and processing was organized by MOSONiE Socio-Economic Foundation at its Training and Resource Centre in Umtrnga village, Ri-Bhoi District, Meghalaya under the project supported by APF. The training was carried out in collaboration with the Department of Textiles, Nongpoh, Government of Meghalaya and Resham Sutra, supported by Azim Premji Foundation and SELCO Foundation.

The training aimed to improve the livelihoods of marginalized women in 10 tribal villages of Umling Block, Ri-Bhoi District, Meghalaya, by teaching them to rear eri-silkworms and process eri-silk. Targeting daily wage earners and marginal farmers, many participants were already producing 15 to 20 kgs of cocoons annually but lacked skills in yarn processing. The training, conducted in 4 batches with 37 women, included theoretical sessions by Textile Department inspectors and practical workshops led by experts from Resham Sutra. This initiative addresses local yarn shortages and empowers women with necessary skills for product value addition.

Health and Hygiene :

Health is one of the MOSONiE thematic areas actively working since the inception of the organization by reaching out to the far flung villages. Under Health, MOSONiE has concerned areas working for the community. Through this project several awareness sessions related to menstrual hygiene were conducted through the support of Azim Premji Foundation.

Implementation:

Awareness on Menstrual Health and Hygiene Management with Women and Adolescent.

Through a series of awareness programs, in the financial year 2023-2024, MOSONiE SEF reached out to women and adolescent girls on Menstrual Hygiene Management providing awareness on the good practices, myths and facts related to menstruation. A total of 150 women and adolescent girls received awareness on Hygiene related to Menstruation.

Objective:

- To promote the status of female hygiene management by distributing eco-friendly sanitary pads and impart them the knowledge of how to use them.
- To build an enabling environment on hygiene so that the girls feel supported and comforted in school or in public places during their menstrual cycle.
- To assessed and monitor the health center

Operation and Maintenance of Health Center (O&M):

Energy for Health is one of the important areas MOSONiE has initiated in collaboration with SELCO Foundation. The whole Health Centres in Meghalaya has been solarised in order to run the overall health system functioning for 24 hrs without any lighting issues. MOSONiE initiated in monitoring the health centres by creating awareness in all the health centres and community level. The main aim of creating awareness is to make the rural people aware of the availability of facilities in the health centers, so that the villagers can avail 24X7 for any emergency purpose.

Environment

Under the initiative, with the support of GOONJ Organization, MOSONiE-SEF conducted various activities in across the four blocks, Ri-Bhoi Disttist, Meghalaya

Cloth for work (CFW), School to School (S2S) & Community Library

MOSONiE Socio Economic Foundation, in collaboration with Goonj Organization, has implemented a various community development activity across the 3 blocks in Ri Bhoi District in Meghalaya.

CFW initiative aims to promote participate in carrying out the developmental activities which will beneficial their own communities or villages. In this initiative 1 or 2 members from each household participated in the activities for two days After completion of the two days' work, each family received family package as a gift. This year MOSONiE-SEF distributed 1400 bags of family packages in 24 far flung remote villages in Jirang and Umling and Bhoirymbong Block of Ri-Bhoi District, Meghalaya.

S2S initiatives focus on enhancing educational environment by engaging students in activities like cleaning classroom, planting trees and organizing drawing competition.

Community library aims to promote knowledge sharing and reading habits among the villagers by providing space where children, youth and parents can access a wide's range of books from the library. it also creates an opportunity for lifelong learning and encourage a culture of reading in rural areas.

Objectives:

- Revive and maintain water sources and improve sanitation within village campuses.
- Encourage school attendance and participation in regular classes.
- Improved nutritional intake for individuals and households and provide a source of income through the sale of surplus products.
- Provide a source of income through the sale of surplus produce.

Implementation:

1. Cleaning water source and sanitation facilities.
2. Repairing roads and creating kitchen gardens for Integrated Child.
3. Development Services (ICDS) schools and Anganwadi centers.
4. Planting trees and flowers on school campuses.
5. Cleaning classrooms and school compounds.
6. Pottery making with mugs.
7. Organized drawing competitions focused on village maps. Students receive school bags and other essential items as gift.

ORGANIZATION DEVELOPMENT (OD) SUPPORT

As part of the OD program, during this financial year the team attended various workshops and training organized by different organization

Online training on Talent HR management and Legal compliance:

The online meeting on Talent HR management and Legal compliance was held on 15-18th May 2023 where 2 teams from MOSONiE attended the session. The session was an overall discussion on organization values and purpose, talent management.

Project development and management:

From 8th -12th August 2023, Project team Lian and Margaret attended a workshop on Project development and management at IDeA-the ant office at Chirang, Assam. The workshop on Project Development & Management aims to delve into the holistic process of project conceptualization, involving community engagement, logical framework preparation, budgeting, timeline establishment, project progress tracking, and more. This residential workshop spans five days and employs a combination of theoretical and practical facilitation techniques.

Training On proposal writing and Formulation:

From August 9th to 11th, 2023, MTeam Ringbila and Salome attended a training program on proposal writing and formulation, organized by the Northeast RCRC. The training took place at Manas Resort in Barpeta, Assam, and was attended by 33 participants. The resource persons for the program were Mr. Pratap and Mr. Kashi Mettya from National RCRC, Delhi. The main focus of the training was to assist grassroots organizations in building strong project proposals aligned with their thematic areas. The sessions were insightful, providing valuable knowledge and skills to help organizations approach funders effectively and ensure organizational sustainability.

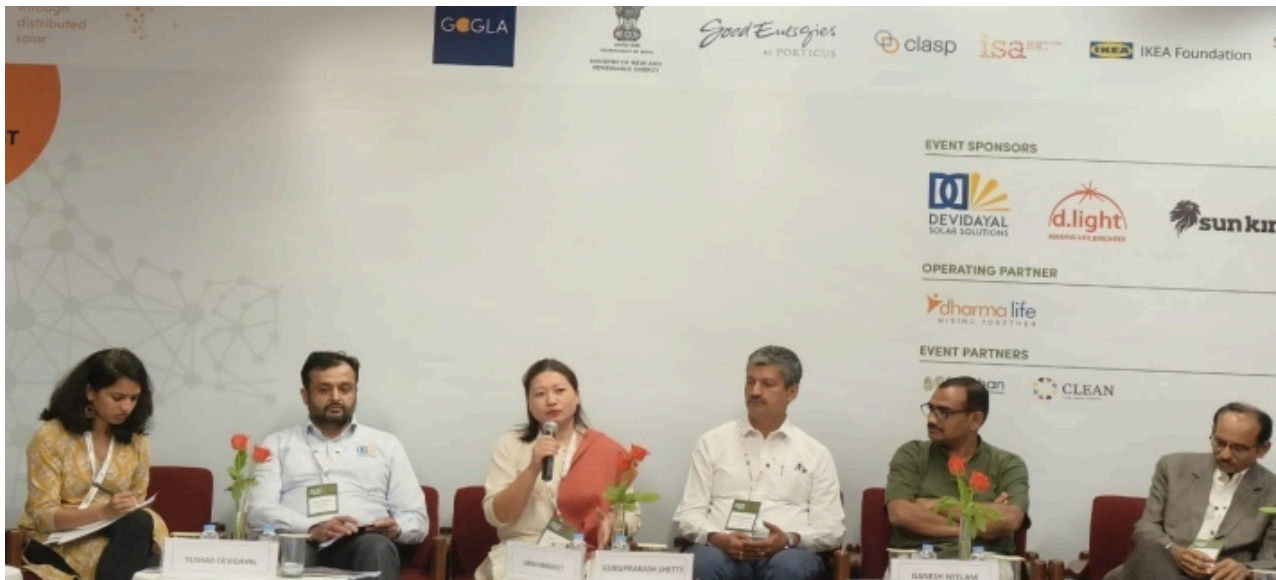

Livelihood Promotion:

From 13th - 16th September 2023 MTeam, Lian and Salome attended a workshop on Livelihood promotion organized by IDeA-the ant at Bosco Reachout Guwahati. The workshop specifically emphasizes the development of resilient livelihood practices, drawing from both traditional and contemporary approaches, within the North-eastern states. Over the course of four days, participants will engage in a combination of theoretical and practical exercises, further enhancing their comprehension of value chains and business planning. The ultimate goal of the workshop is to foster a harmonious integration of market-oriented strategies and sustainable management of natural resources.

South Asia Forum for Distributed Energy :

On 24th August 2023 Margaret participated in the South Asia Forum for Distributed Energy. The event was organized by GOGLA in collaboration with SELCO Foundation. she highlighted the positive impact of Decentralized Renewable Energy on communities in remote areas. She also highlighted the challenges faced by the team to provide financial services due to the geographical terrain. Taking MOSONiE-SEF as an example she shared the importance of supporting these underserved communities and empowering through access to energy.

Distributed Renewable Energy (DRE) for Livelihood in the Northeast Region (NER) :

On September 22, 2023 MNRE, along with SELCO Foundation and AREAS, organized a workshop focused on developing program pipelines for Distributed Renewable Energy (DRE) for livelihoods in the North East Region (NER). The Executive Director of MOSONiE SEF gave the opening statement at the workshop, held at AIC-SELCO Foundation in Guwahati, Assam. She discussed the region's challenging geographical terrain, the financial model for DRE interventions, and their impact. Additionally, she stressed the significance of partnerships with government institutions and the effective utilization of funds for implementation.

Accounting and financial management Workshop:

MOSONiE SEF team attended a 3-days workshop from the 9th to 11th of October 2023 on Accounts and Financial Management organized by IDeA the Ant. The Training enhanced the team with new insights and concepts on accounting and record keeping systems such as books of accounts to be maintained, basic accounting documents, details of register to be maintained, cash management and bank management. The team learned about the statutory requirements of non profit Organizations like MOSONiE SEF. The team also got a fair idea of how to make budgets and how to manage budgets of various projects and inputs on basics of accounting softwares primarily tally prime.

Monitoring evaluation and documentation:

The team attended a workshop on Monitoring, Evaluation and Documentation from 15th-17th November 2023 organized by IDeA the Ant, at the Bosco Reach Out, at Guwahati, Assam. Through this workshop the team gained knowledge on how to build and develop Monitoring and evaluation plans for projects. The team was also exposed to knowledge of how to make good documentations.

Workshop on evolving inter-relationship between civil society and various arms of the Government in Assam:

On 11th January 2024, Mteam(Lian)attended a Workshop on evolving inter relationship between civil society and the state in Assam. The workshop was held at NEDFI Office, Guwahati. Various key issues in the context of Northeast were discussed during the workshop Dr. Sanjiv Phansalkar from Vikasanvesh Foundation is the resource person during the workshop. Various Partner organizations of NE-RCRC participated during the workshop

Getting funded Step by step process for writing winning Grant proposal:

On 22nd January 2024 Mteam lian and Margart attended workshop on Getting funded: A step by step process for writing winning Grant proposal .The workshop was held at Bosco Reach out Guwahati , the workshop covered various topics such as Researching funding prospects, writing a compelling problem.Needs Assessment, Defining clear goals and Objectives, Outlining your proposed activities ,preparing the Evaluation component and Developing the program budget. Morry Roa Hermnon was the resource person during the workshop.

Leadership retreat

From February 14th to 18th, 2024, the Executive Director of MOSONiE SEF participated in a five-day leadership retreat organized by IDEa-the ant as part of the ant incubation program.The retreat focused on self-reflection and leadership skills within the organization, featuring a range of activities and learning sessions throughout the stay.

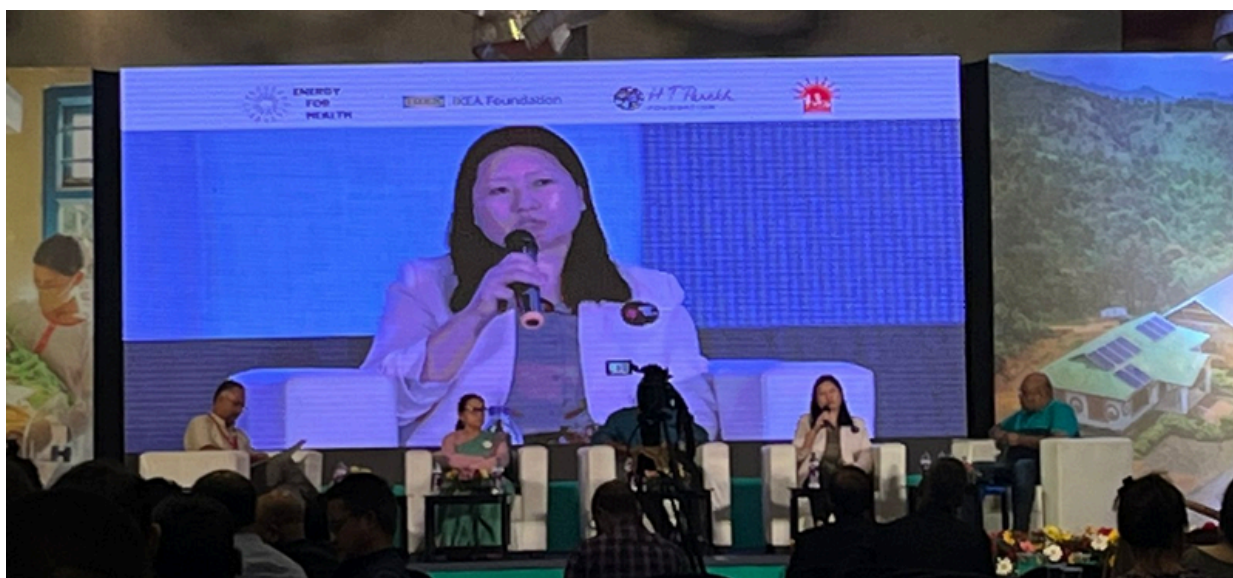

Team Exposure visit

From 19th to 21st February 2024, project team went for capacity building and exposure on livelihood to SeSTA Office, Guwahati. The aim of the visit was to engage in insightful interactions and gain a deeper understanding of the organization's various functions and intervention models, particularly focusing on livelihood interventions. The team had the opportunity to interact with professionals from SeSTA and communities which allowed the team to witness firsthand field approaches, processes and staff engagement of day-to-day activities at Rongjuli Goalpara Dist, Assam.

Northeast Health Summit

On 28th February 2024, Executive Director of MOSONiE-SEF participated in the Energy for Health Summit Northeast Region Chapter 2024. The panel discussion focused on Leveraging Financial resources. During the panel she shared her firsthand experiences working in healthcare at the grassroots level. She emphasized the importance of close monitoring of solar infrastructure at health centers and the need to reduce transaction cost for healthcare facilities. She highlighted the challenges faced in the hilly terrains where road accessibility is severely affected by rain. Strengthening the health sector infrastructure requires ongoing financial support and she discussed MOSONiE efforts to develop an operation and Maintenance model in Ri-Bhoi District, Meghalaya.

Write shop workshop

From 27th - 29th February 2024, Mteam Rinlan attended a Writeshop organized by SeSTA, under the NODE program at Rongjuli, Assam. The writeshop is designed to help in developing case studies, success stories, strategic documents, reports, articles etc.

Building strong Foundation Nurturing Organisational Development & Culture in CSOS

The session was taken up by Achintya Ghosh, Founder & Executive Director of KABIL and Michelle Markos COO at Sunbird Trust. The session talks about the organisation development from a different perspective. The speakers emphasized on recruitment, nurturing, capacity building, culture and values, System and process, building relationships with stakeholders, roles and responsibilities of the founding members, and regular team meetings for overall sustainability of the organisation.
